Providing Aberration Free Vision

The Aspherical AF IOLs is made of a hydrophilic acrylic material, with proven reputation and many years of clinical experience.

- The IOLs are characterized by excellent biocompatibility and mechanical quality
- The IOLs material incorporates a violet filtering chromophore for better protection of the retina.

The Aspherical AF lens from Hanita Lenses, provides the patient with an excellent vision quality of day and night conditions, by using state-of-the-art aberration free aspherical optical design.
